Building a Bridge in Transportation and Public Safety Communications

CapWIN Mobile News

Remote Mobile Data Terminal System (RMDTS)

The State of Maryland is in the final stages of full implementation of the new Maryland criminal justice information system (Md CJIS). The antiquated Maryland Inter-Agency Law Enforcement System (MILES) is being replaced by a new Maryland Electronic Telecommunications Enforcement Resource System (METERS), which also includes a new RMDTS interface. In order to access RMDTS all Maryland law enforcement agencies with mobile computers had to be transitioned over the new interface. We are pleased to report that all agencies using CapWIN have been transitioned and are now operational. As new agencies join CapWIN they are being placed directly onto the RMDTS at the time of activation.

Mobile Client Security

Over the past several months a few of our subscribing agencies have undergone and/or completed a Federal Bureau of Investigation (FBI) National Crime Information Center (NCIC) audit. One aspect of the audit process involved an examination of security procedures. CapWIN meets or exceeds all federal and state requirements. The CapWIN mobile client has been certified to meet the Federal Information Processing Standard (FIPSecure) 140.2. In addition, our network architecture diagrams were provided and no issues were identified regarding the mobile Criminal Justice Information System (CJIS) access.

Victim Information and Notification Everyday Protective Orders

The Victim Information and Notification Everyday (VINE) program is a nationwide initiative to assist domestic violence victims. Last fall the State of Maryland expanded their participation in the VINE program to include victim updates. The VINE Protective Order (VPO) system provides victims a mechanism for registering to receive updates. One portion of this system requires law enforcement officers (LEOs) to update the appropriate Maryland Electronic Telecommunications Enforcement Resource System (METERS) database within two hours of their serving a VPO. This mandate was causing certain logistical difficulties for some agencies throughout the state. To address this issue CapWIN developed a new VPO screen for our Maryland subscribers. The new screen provides a live mobile interface directly into METERS and allows officers to meet the mandated timeframe while still in the patrol vehicle. We are pleased to announce that the system is now live and in production.

Maryland Computer Aided Dispatch & Records Management System Kickoff

In a previous issue, CapWIN reported the State of Maryland awarded the contract for a new state-wide Computer Aided Dispatch and Records Management System. CapWIN is excited to announce that we will be providing the mobile interface to the Statewide InterAct Public Safety CAD System. This project is designed to provide mobile dispatch information to the Maryland State Police, the Maryland Transportation Authority Police, the Maryland Transit Administration, and the Natural Resources Police Department. An official project kick-off meeting was held on April 14th at the Maryland State Police Headquarters and CapWIN was present for this event. We are looking forward to working with our state partners on this initiative and are confident that we will provide a superb mobile interface for all involved Maryland agencies.

Upcoming Training

CapWIN offers training every month. Scheduled dates are listed and updated on the event calendar contained on the CapWIN website. The CapWIN V2 Mobile Client course is designed for all users of the CapWIN System, both sworn and non-sworn. This is the main course recommended for all CapWIN Users. This hands-on course will present students the general knowledge and skills needed to actively use the CapWIN System and its complete functionality.

Upcoming Training Dates

May 2011	June 2011
Tuesday, May 3rd	Tuesday, June 7th
Wednesday, May 16th	Thursday, June 16th

Welcome to New Agencies

CapWIN is pleased to welcome the following agencies, who just signed Memorandums of Agreement and have subscribed to CapWIN: **Cheverly (Md) Police Department National Center for Missing & Exploited Children**

Newsletter New Look

As many of you may notice our CapWIN Mobile News has a new look this month. We here at CapWIN wish to extend our thanks to Carly Keane for all of her assistance with the new layout. It is our intent to continue providing you, our users with bi-monthly updates on all of our projects and this newsletter is a prime way of accomplishing that task.
