Policies

1. The fee category for an agency will be based on a good faith estimate by the agency for the upcoming fiscal year.
2. Full deployment can take place at any time upon execution of a Memorandum of Agreement and upon completion of the required training for the proposed users and/or the in-house trainer

Note: The system and all support services can be made available to an agency on a temporary basis for testing and evaluation without cost or obligation. It will only be necessary for a user to complete the training before using the system.
